

exponential distribution: a= 7.6 b= -0.87 correlation coeff= -0.85

fisk distribution: a= -40 b= 17 correlation coeff= 0.977

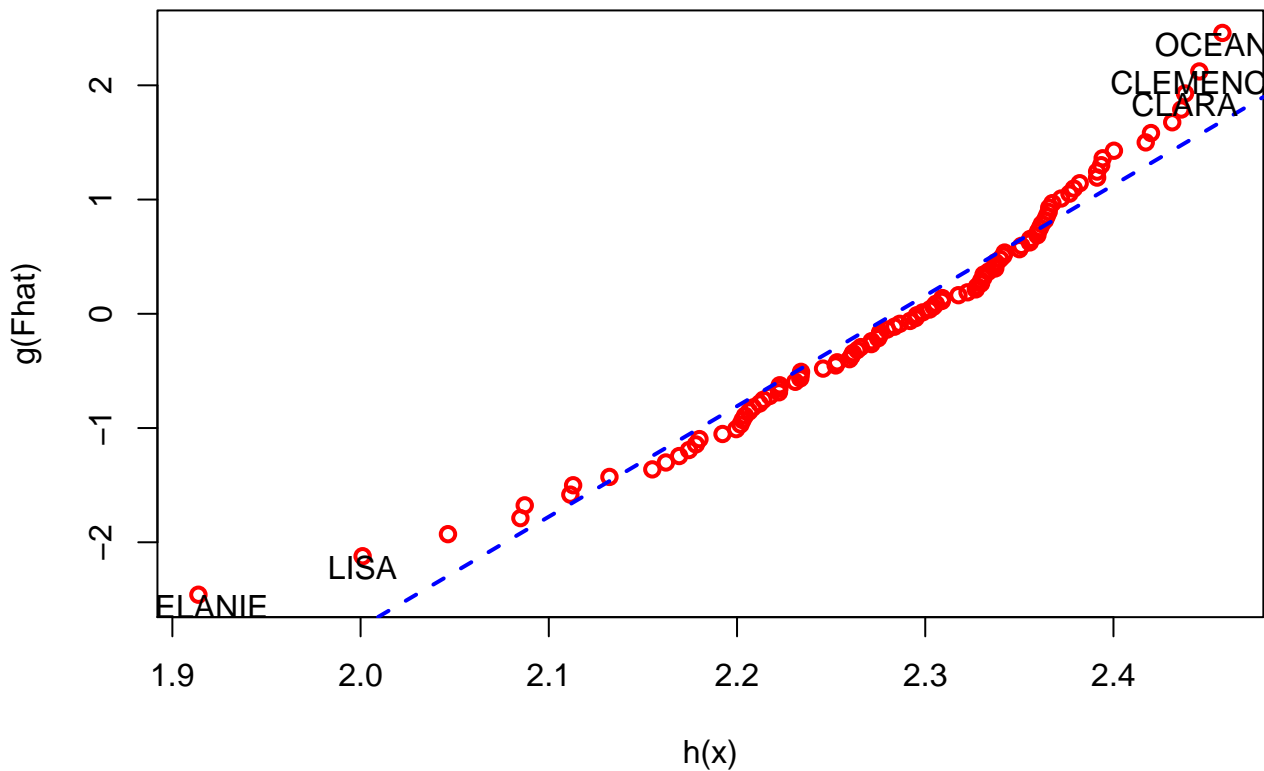

frechet distribution: a= 25 b= -11 correlation coeff= -0.908

gumbel distribution: a= 12 b= -1.2 correlation coeff= -0.934

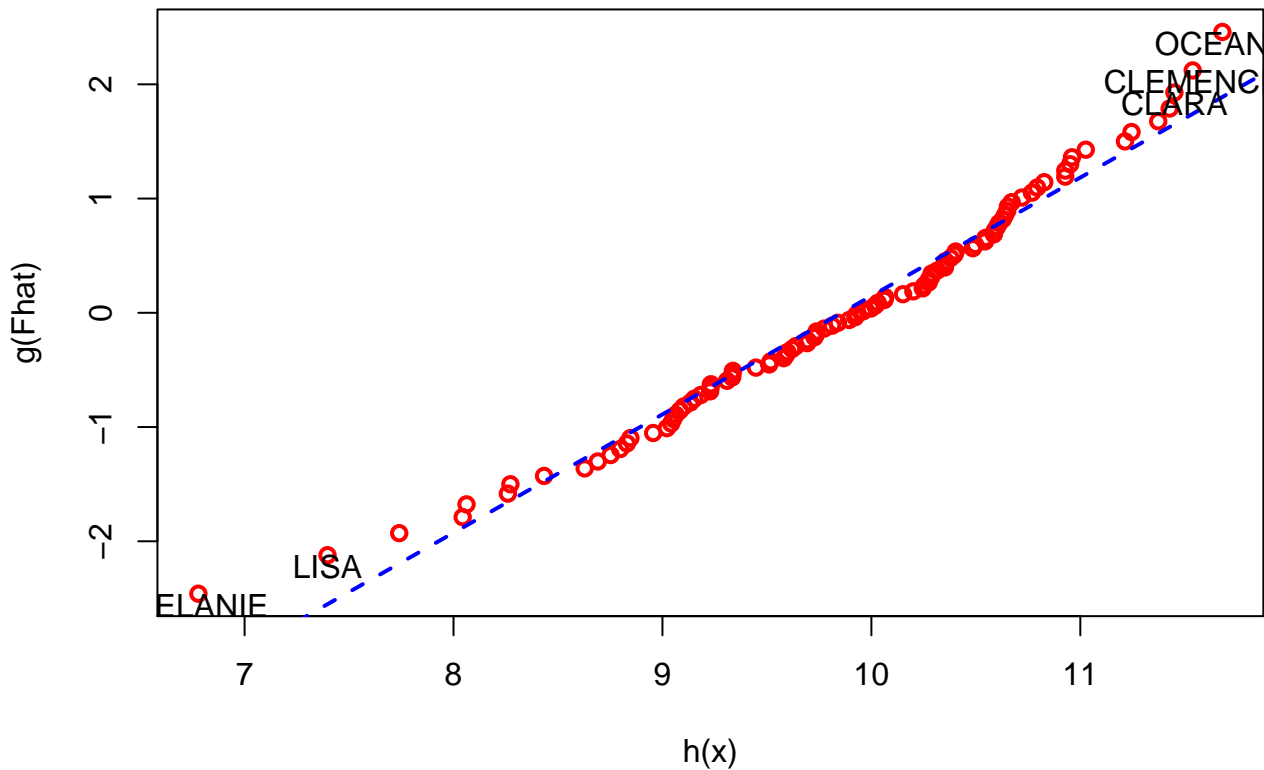

log-normal distribution: $a = -22$ $b = 9.7$ correlation coeff = 0.975

logistic distribution: a= -18 b= 1.9 correlation coeff= 0.988

normal distribution: a= -10 b= 1.0 correlation coeff= 0.988

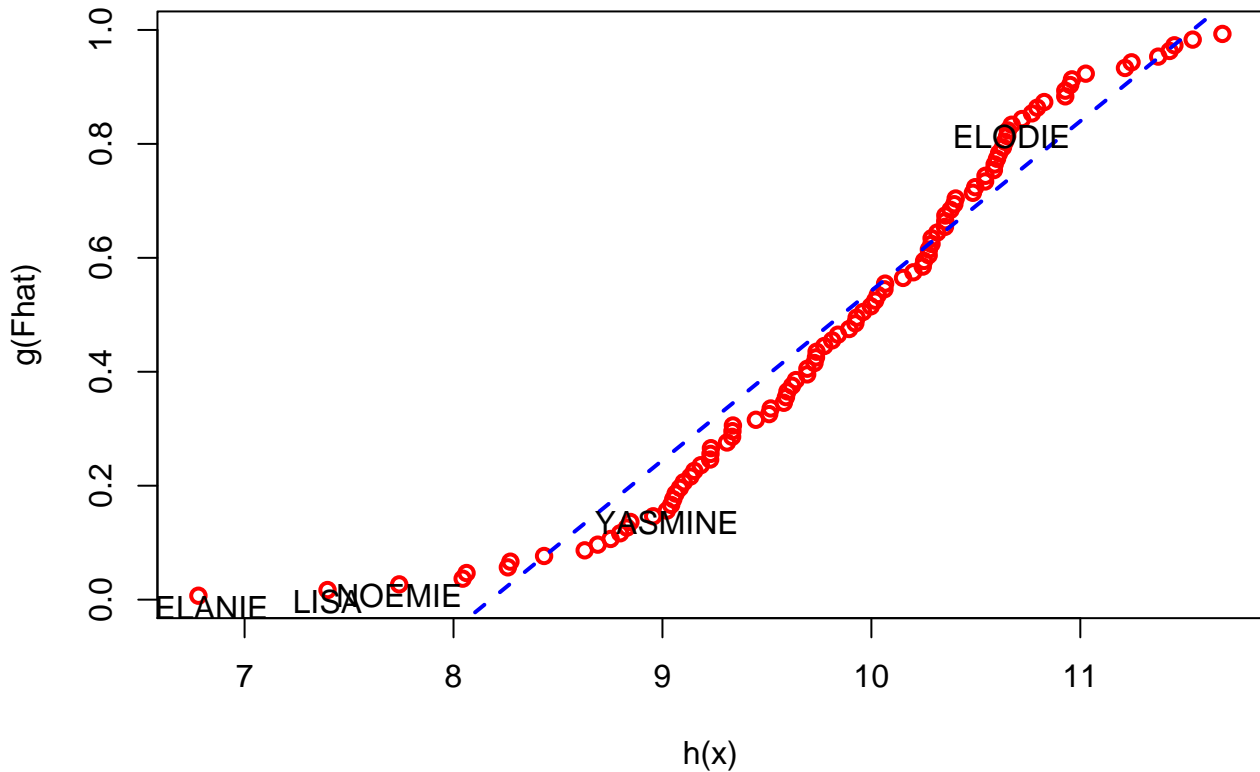

pareto distribution: a= 17 b= -7.9 correlation coeff= -0.814

power distribution: a= -23 b= 9.4 correlation coeff= 0.977

uniform distribution: $a = -2.4$ $b = 0.3$ correlation coeff= 0.966

weibull distribution: a= -29 b= 13 correlation coeff= 0.998
